# **Richard Hart**

#### **Profile**

Richard has nearly 40 years of construction industry experience in the fields of civil and structural engineering. His experience covers both building structures and more recently, bridge projects. He has worked in Australia, England and Spain where he now resides.

### **Key Experience**

- Broad range of experience in design, site supervision, independent checking and project management.
- Structural design of building projects in reinforced concrete, structural steelwork, timber, and masonry.
- Civil Engineering design of paved areas and drainage in housing developments.
- Quantities estimating, structural surveys and appraisals of existing buildings, reports, method statements, specifications etc.
- Technical evaluation of civil engineering claims.
- Experience with Australian, British, Spanish, and American Standards and Codes of Practice as well as Eurocodes.

### **Profession**

Structural/Civil Engineer

#### **Nationality/Languages**

Australian
Spanish - Fluent
Qualifications

BE (Civil) University of Melbourne. 1982

# Online Computer Science Courses Harvard University

- ► Introduction to Computer Science;
- Introduction to Artificial Intelligence with Python;
- Web Programming with Python and JavaScript.

### **Professional Associations**

Corporate Member Institution of Structural Engineers (MIStructE) Graduate Member Institution of Civil Engineers (GMICE)

#### **Recent Experience**

### **Mersey Gateway Project**

**Deputy Project Manager Landside Structures.** Project manager for Eptisa whose design responsibilities covered all retaining walls, drainage for the entire project including the Main Bridge, geotechnical design and sub-structure design Astmoor & Bridgewater Viaduct. Richard was responsible for the supervision of production and submission of drawings and reports, including quality control. He attended weekly design coordination meetings as well as monthly DJV Board meetings.

#### **N25 New Ross Bypass**

**Project Manager CAT III check** including Barrow Crossing. Richard was responsible for overseeing the independent checking (category 3) and acceptance of structural drawings and geotechnical reports as well as attending client coordination meetings.

#### Danube Bridge 2

Management of production of Working Drawings and also Design Site Representative for the New Europe Bridge, formerly known as Danube Bridge 2 and the Vidin–Calafat Bridge (Bulgaria). Richard was responsible for developing the design general arrangement drawings for the entire project into working drawings. These included the river crossing and approach as well as the railway bridge and the drainage design for both structures. He was also the Design Site Representative and attended monthly site design coordination meetings between designers, client and checking engineers.

### **Employment Record**

Since Sep-13	Eptisa Servicios de Ingenieria, SL
	Project Manger CAT III Check <b>N25 New Ross Bypass</b> . Contact value €230m.
	Deputy Project Manager Landside Structures, Mersey Gateway Project. Contact value £550m.
Jun 08- Jun 13	FCC Construccion SA
	Responsible for producing the Working Drawings and Design Site Representative for the Danube Bridge 2 Project (Bulgaria). Contract value €235m.
Apr-06- Jun 08	Dragados SA
	Quality Control Technician Torre Bankia. Contract value €82m.
May 04- Nov 05	Oproler Madrid S.A.
	Site manager refurbishment of 19,000m <sup>2</sup> of office space in two buildings for Ericsson Spain. Contract value €1.7m
Sep 02- Feb 04	Ross & Partners, London /Fitzpatrick Contractors, London
	Resident Engineer Gibraltar General Hospital. Contract value £30m.
Feb 00- Jul 02	Pondio Ingenieros, Madrid Design engineer.
Sep 97- Aug 99	Ross & Partners, London Design Engineer.
May 91- Sep 97	John E. Foster & Partners, London Design Engineer/Resident Engineer.
Aug 90- Feb 91	Ross & Partners, London Design Engineer.
Mar 90- Aug 90	Delta Demolitions, Melbourne Site foreman.
Dec 88- Mar 90	P & S Kubale Ltd, Melbourne Site leading hand.
Jan 88- Dec 88	Zafiris Constructions, Melbourne Cost estimator.
May 87- Dec 87	Ross & Partners, London Design Engineer.
Jun 86- Mar 87	Reviresco Contracting, London Site leading hand.
Dec 85- May 86	P & S Kubale Ltd, Melbourne Site leading hand.
May 85- Nov 85	Ross & Partners, London Design Engineer.
Sep 83- Nov 84	P. Berger & Associates, Melbourne Design Engineer.
Jan 83-Aug 83	Tech Builders, Melbourne Site leading hand.

### **Experience with Eptisa**

<u>Mersey Gateway Project:</u> **Deputy Project Manager Landside Structures** 

N25 New Ross Bypass: **Project Manage CAT III check**.

Mersey Gateway Project: Main Bridge

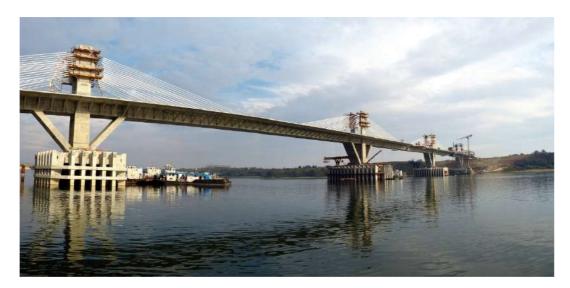

Mersey Gateway Project: Astmoor & Bridgewater Viaduct

N25 New Ross Bypass: Barrow Crossing

### **Experience with FCC CONSTRUCCIÓN**

In charge of production of Working Drawings and also Design Site Representative for the New Europe Bridge, formerly known as Danube Bridge 2 and the Vidin—Calafat Bridge (Bulgaria). Contract value 235M€.

New Europe Bridge

Responsible for developing the Definitive Design drawings into Working Drawings for construction, for all the bridge structural elements: Piling, Pile Caps and Vessel Impact Protection, Piers, Deck, Abutments, etc. Drainage, M&E, Bank Stabilization and Scour Protection.

Also part time Resident Engineer and Design Site Representative at the monthly site progress meetings.

### **Experience with DRAGADOS SA**

**Quality Control Technician** on 250m Torre Bankia (formerly known as *Torre Caja Madrid* and *Torre Repsol*). Contract value €82M.
